

help *Us* ... help

*Because
the pain of
childhood
cancer isn't
just physical.*

Striving for More is dedicated to ensuring that children with cancer and their families receive quality emotional and spiritual support.

Striving
for More 
THAN A CURE

help *Us*...help

Did you know?

- Every year approximately 12,400 children and adolescents under the age of 20 are diagnosed with cancer and about 4,000 children die from cancer each year. That means about 11 children die from cancer or cancer-related complications each day.
- Cancer treatment can cause serious side effects that may last a lifetime.
- Children do not usually share their feelings of fear with their parents in an effort to protect them.
- Research shows that parents and siblings report even greater long-term emotional impacts than the diagnosed child.

We are confident that our vision can become a reality with the help of generous supporters. Please consider making a contribution to support these children and their critical emotional needs.
